Confirmation Is Spiritual

Highlight Of The Year

Confirmation provided the Spiritual highlight for the school year for the students. Confirmation signals our own recognition of our spiritual maturity by letting us decide that we want to embrace Christianity more closely and intimately be accepting the Holy Spirit into our lives to provide direction and comfort. The Bishop stressed these points to us and also reminded us of the great responsibilities that go with this new Christian lifestyle that we have decided to take as our own.

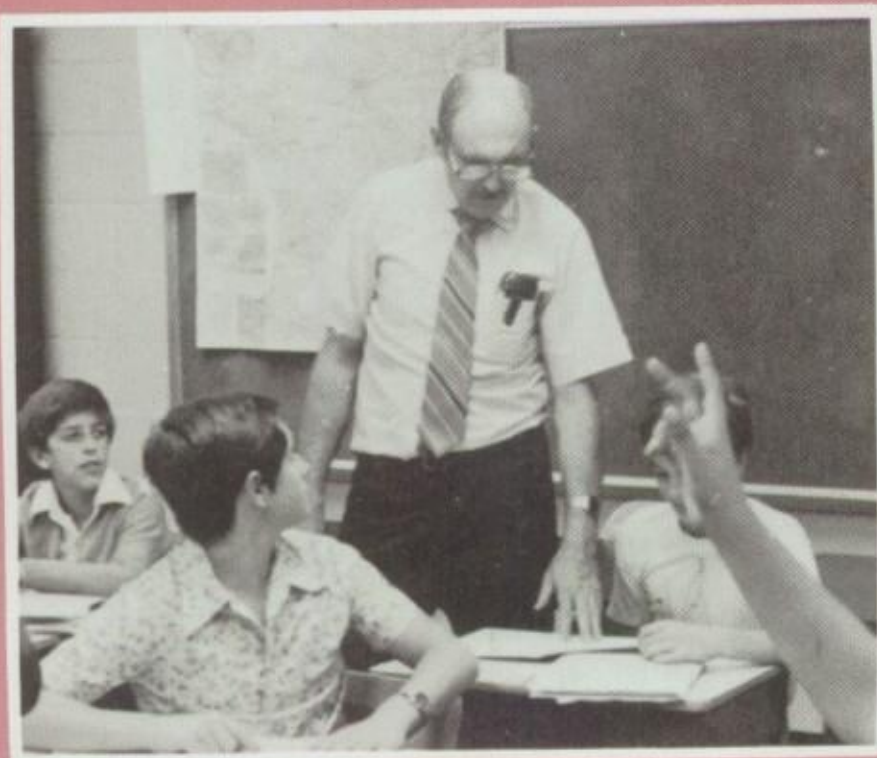

Br. Leo Provides Experience And

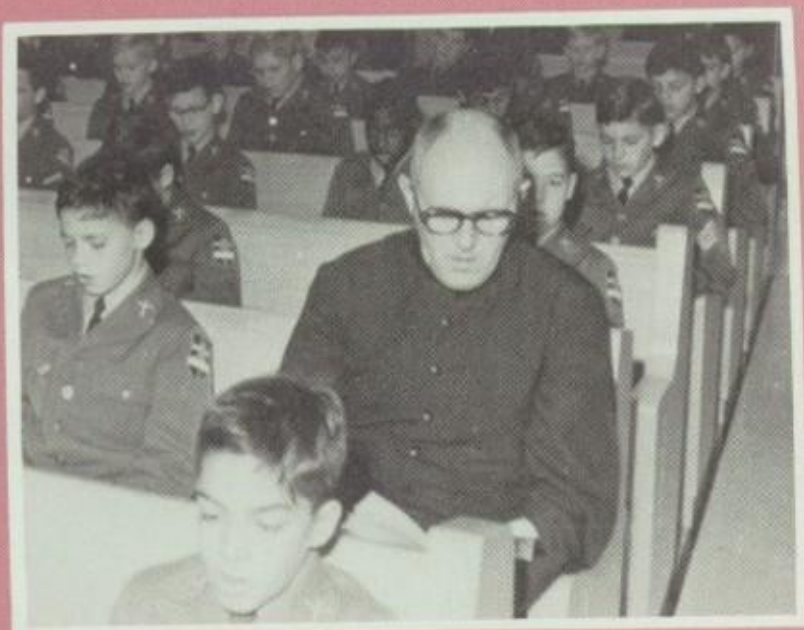

For the last twenty-five years Br. Leo has been a part of Academy's learning process and growing process from water town, wisconsin to here at Rolling Prairie, Indiana. He has dedicated his life to teaching young men to grow up to be responsible adults and contributors to their community.

We of the yearbook staff feel that it is

only proper that these two pages be dedicated to Bro. Leo as well as the whole book because of his big contribution to the Academy over the last twenty-five years because if it were not for his dedication and effort to the principles taught at LeMans it certainly would not have existed this long.

Challenge To Students In 25 Yrs.

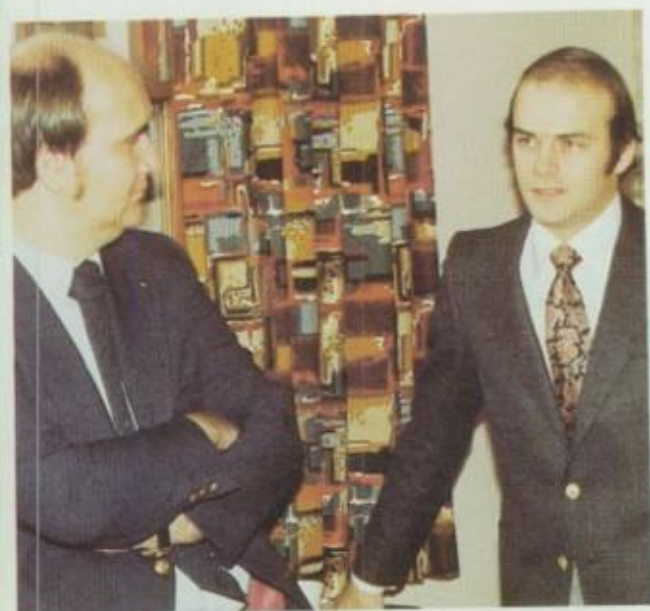

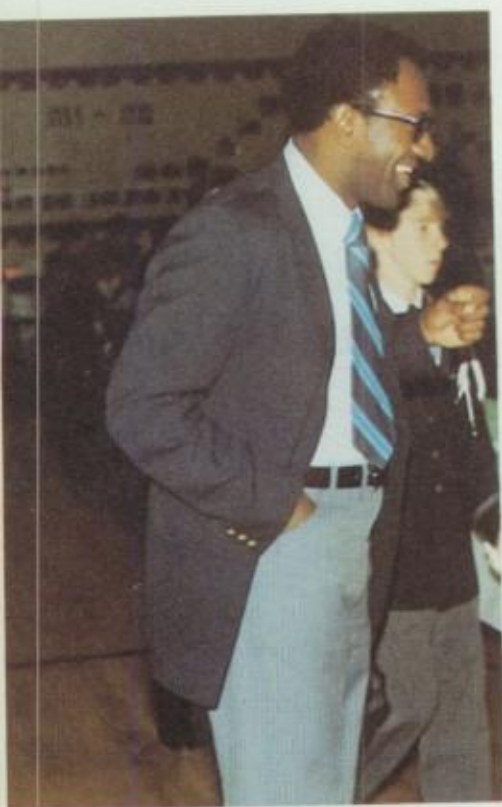

Headmasters Weekend Notes Highlights Of Last 25 Years

Being twenty-five usually calls for a bit of a celebration. For the Academys' twenty fifth birthday there was no exception. Many former cadets and families associated with the Academy over the years came to celebrate. All of the former Headmasters came to see how the Academy had progressed over the years. To their pleasure they were happy to see that we are doing fine and even grown beyond what has been expected for the school in light of the economic atmosphere

that has made it harder for this type of education possible for most who seek it.

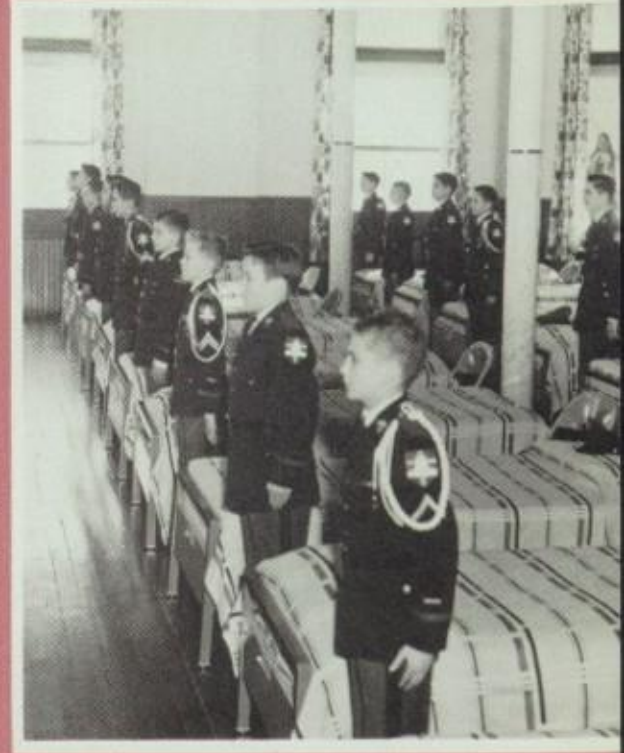

Trusting that the Lord will come through in providing funds to carry on the program we have been able to build a solid program through the years that make it attractive to others. So this years' Headmasters Weekend held a special meaning for all.

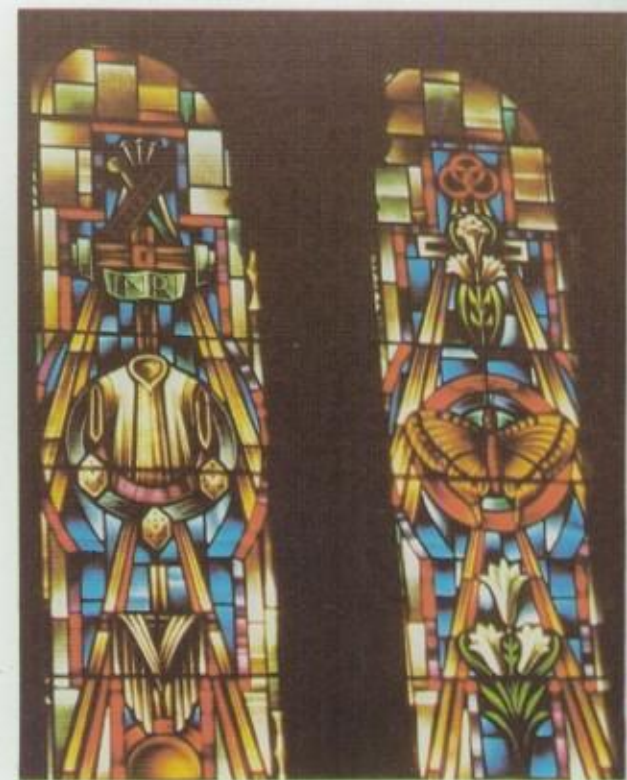

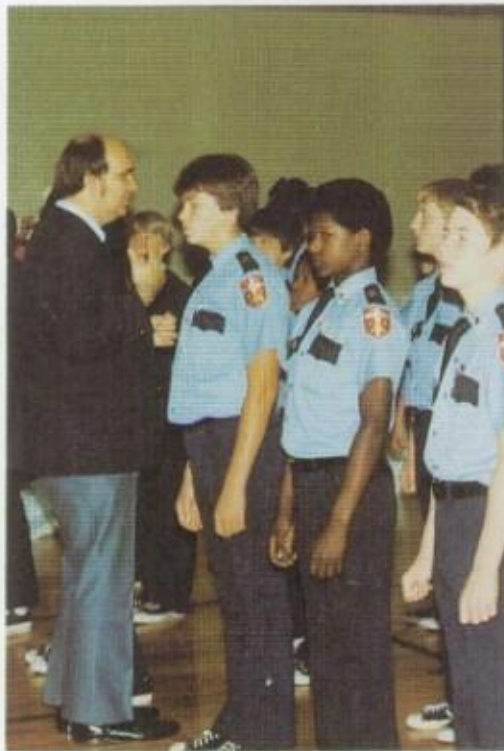

Watertown Provides Beginning

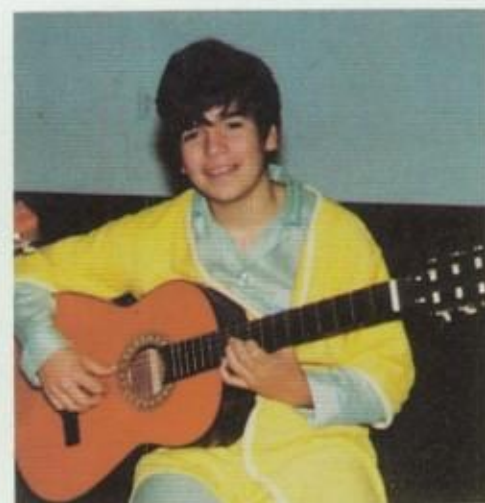

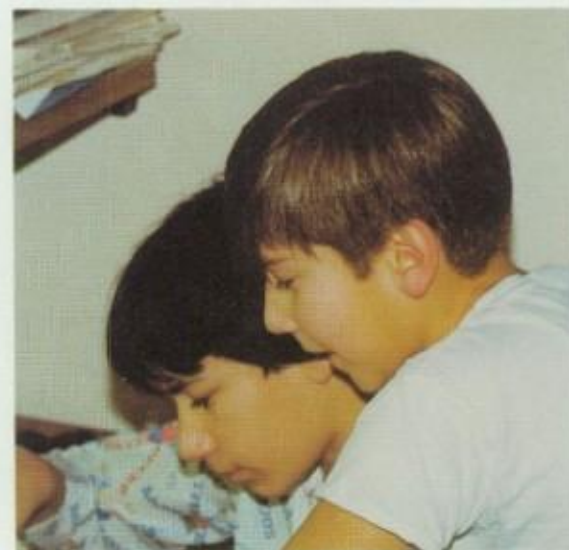

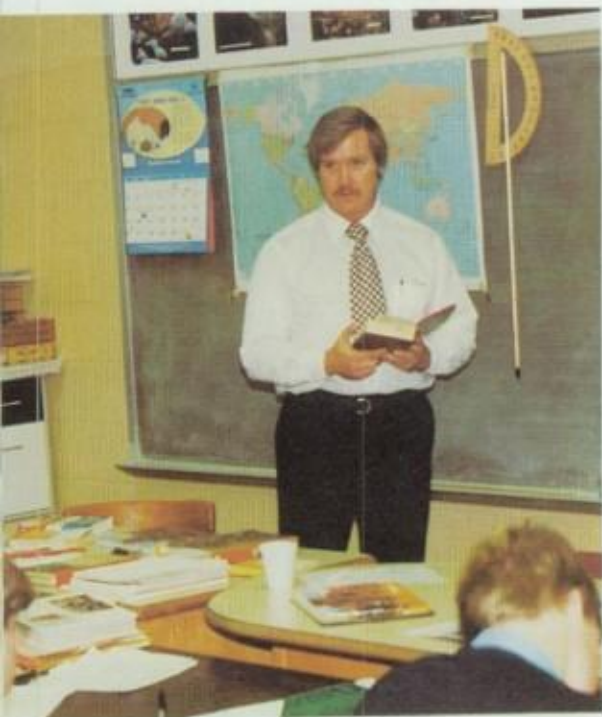

Life At Academy Has In The Last

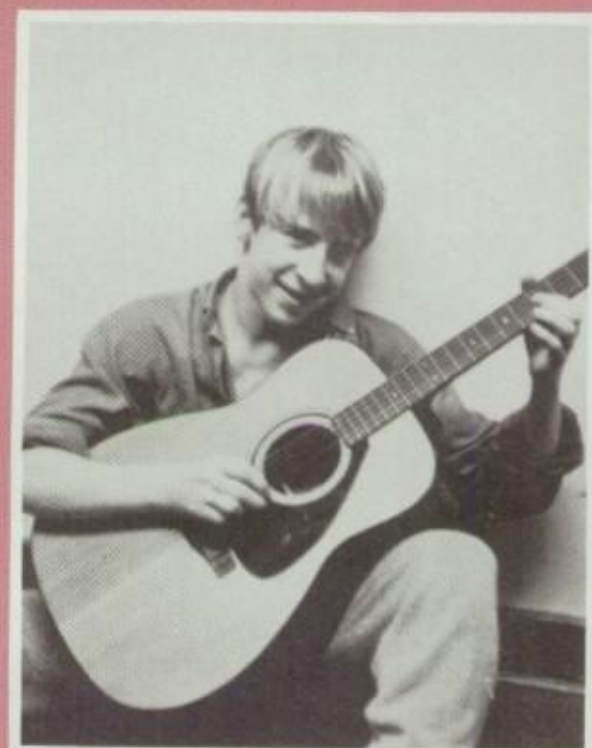

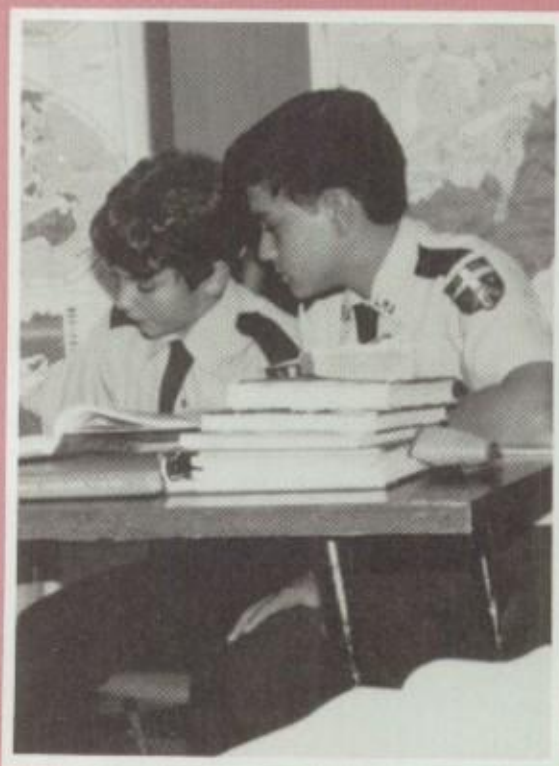

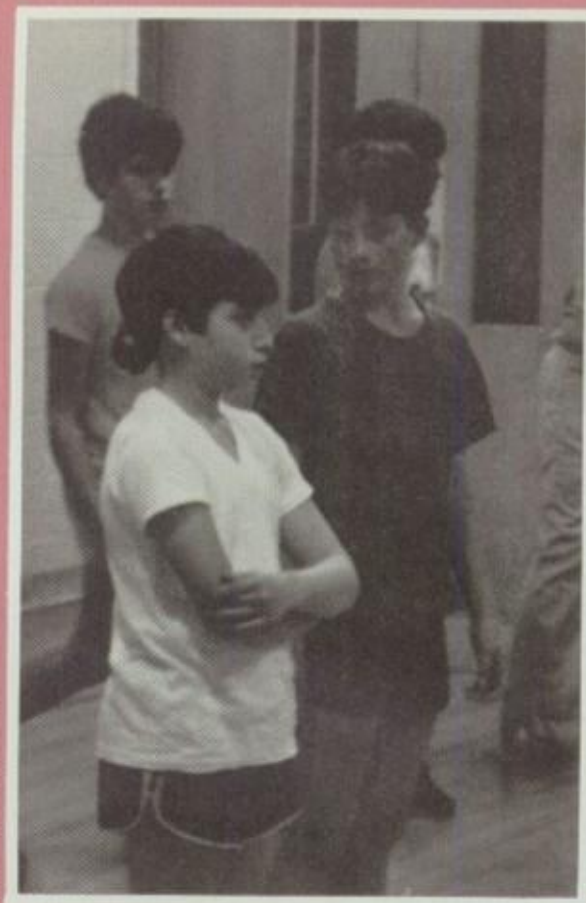

Twenty-five years ago the Brothers of the Holy Cross began a dream of teaching boys how to become a young man through self discipline and hard work at a school in Watertown, Wisconsin called Sacred Heart Military Academy. After years of success the schools needs outgrew its facilities and moved here to Rolling Prairie.

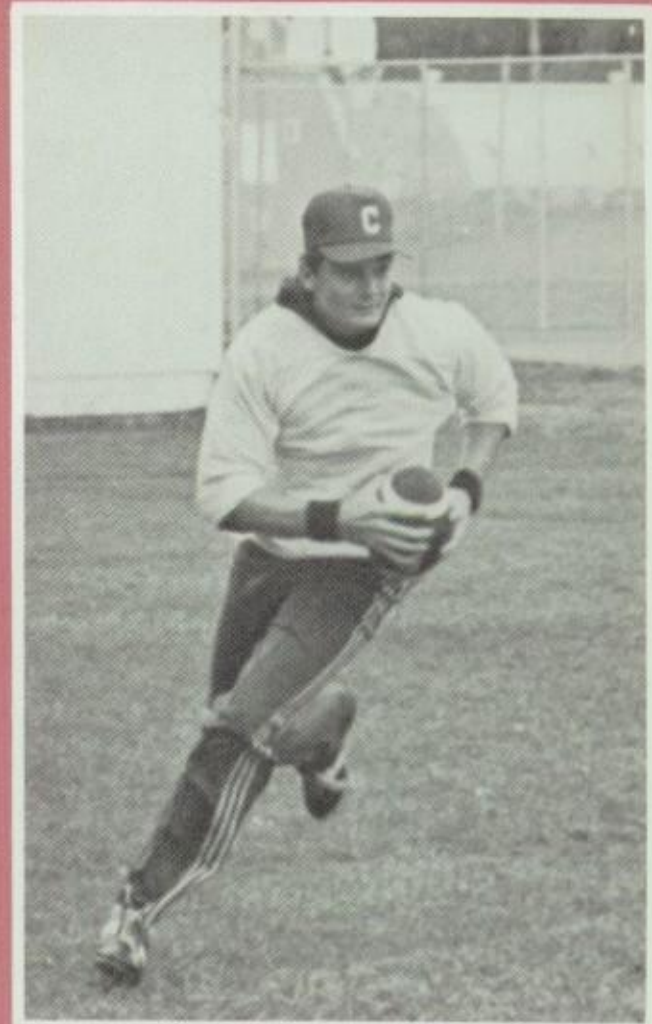

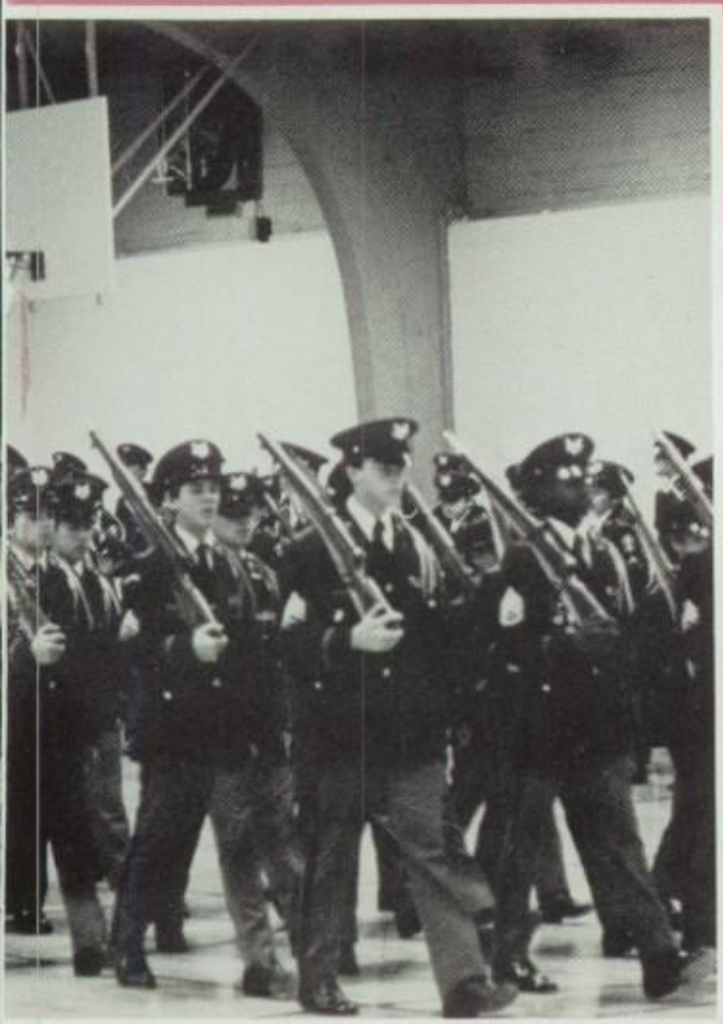

Changed Little 25 Years

*Fall Brings New Experience
To Us In Twenty Fifth Year*

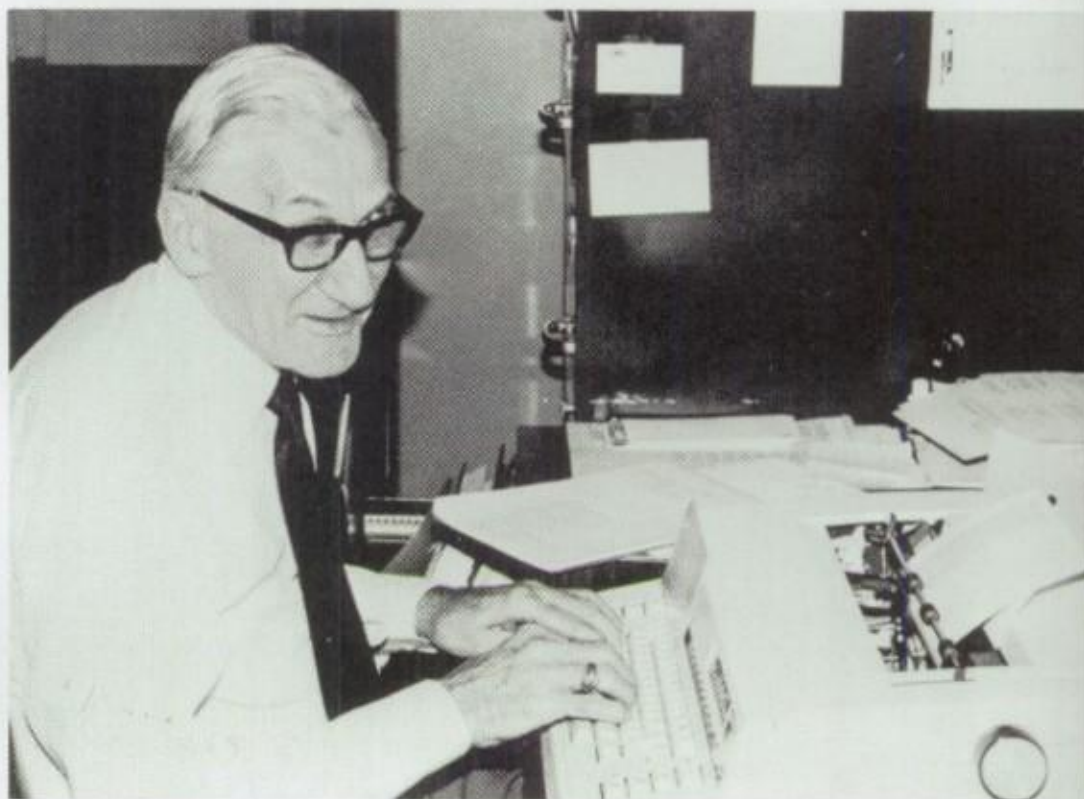

Supportive Staff Sometimes A

This year we heard a lot of talk about the "Lemans Family" but we have often forgotten about the families of LeMans. Br. Ed and his parents, Mrs. Myers and her son Rick and her mother Esther, and our version of the Hardy brothers in Patty and Kathy Hardy(the Hardy sisters). All of these people are extremely important to us in doing the jobs we never see and take for granted. We don't notice the clean floors and windows they take care of; nor do we realize who takes care of our travel arrangements when we go home on leave. So we give our thanks to Mrs. Wright, Bro. Charles, Mrs. Wsol, Mr. Morrow and the rest.

To the right and going clockwise are Mr. Dan Grams who helps Bro. Peter in the Admissions Office; Patty Hardy who takes the switchboard at nights and Rick Morrow who cleans the school in the evenings for us.

Family Affair

From the top left are Bro. Charles who does the booking Mrs. Grams who runs the taylor shop, Mrs. Wright who also does the booking, the second of the Hardy sisters-Kathy, Mrs. Zimmerman who is the school secretary,

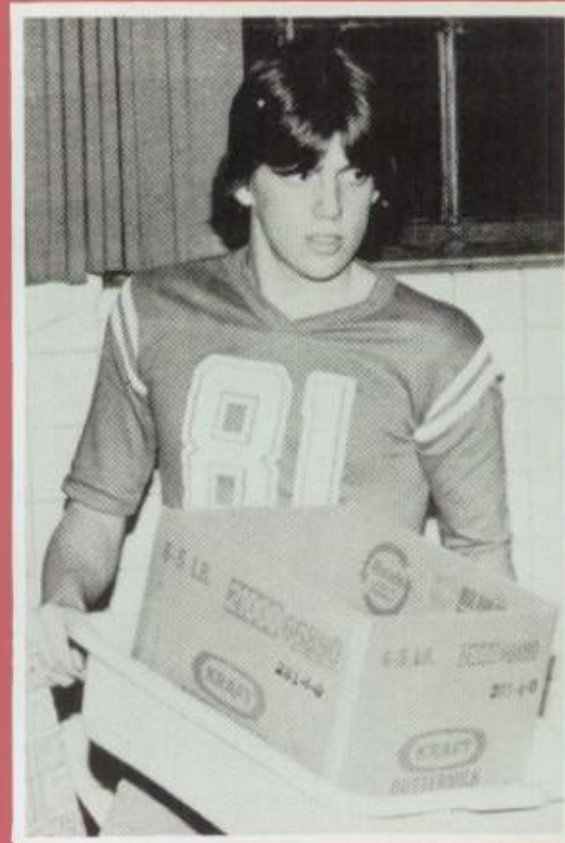

Ladies In Kitchen

Here are another group of people here at the Academy who are taken for granted. The ladies of the kitchen work long hard hours to fix the meals that we too often complain about but never realize are fortunate to have. Before we complain to much we ought to realize that we are fortunate to be able to have enough to eat.

From top left and working back are Mrs. Myers, Mrs. Kuta, Mrs. Konaszewski, Bruce Kirkham, Esther and Mrs. Scott and Mrs. Stanish

Happily Wait On Us

All the hot dogs are not always in the kitchen and are at the tables. These guys the ladies have to cope with at times and that must be very commendable for them to put up so patiently with us when we want more food. So as we look back at our experience at LeMans we will look with favor on the ladies who fed us.

From the top right and going clockwise are Mrs. Miller Mrs. Whiteman Mrs. Wendy Blair and Mrs. Lambert Jim Myers and Mrs. Marion Scott

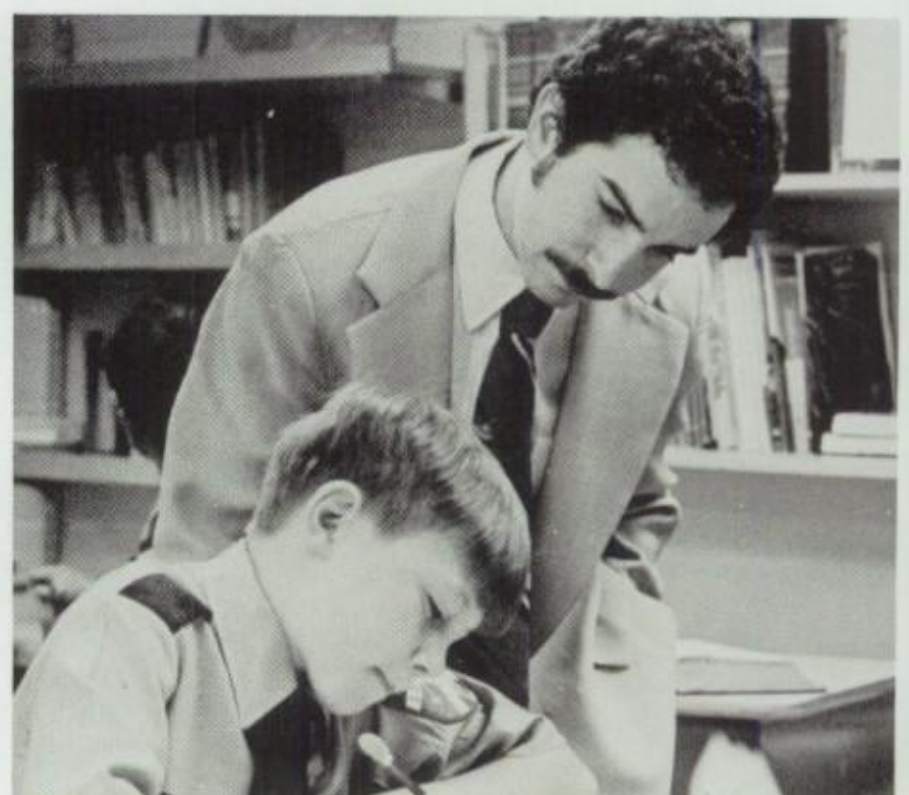

Teaching Staff Has Roots In LMA's

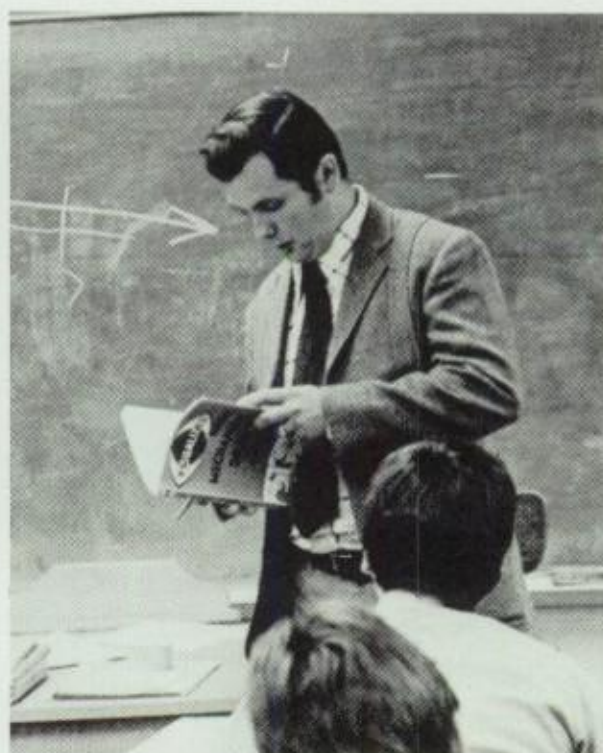

When we say that LeMans has its roots at Sacred Heart in Wisconsin we need to realize that when the Academy was moved it brought some of its roots with it that being Bro. Leo. So we salute him for his dedication to the school but no less dedicated are our other teachers. Nowhere else could you find any others more concerned with helping the student and to all of them we give a great big thank you.

Overlooking her work is Mrs. Jennigs, next is Mr. Matthews and Mr. Edison. Below are the brothers Mr. Lechner and Mr. Pietrczak and Mr. Girardi

Beginings

Above is Bro Edwin next Bro. William with Mrs. Fillman at the far left and Mrs. Kominarek

Above is Miss Barnes with Bro Basil at the far left and at the spot as the elder statesman of the faculty is Bro. Leo

*Our present Headmaster is Brother Peter Graham,
The sixth in the Academy's twenty-five years.
Below is Brother Ed Grams the Assistant
Headmaster and in charge of the school as
Principal. A man who wears many hats as a teacher
and head of maintenance is Brother William
Deusseau.*

Administration Into The

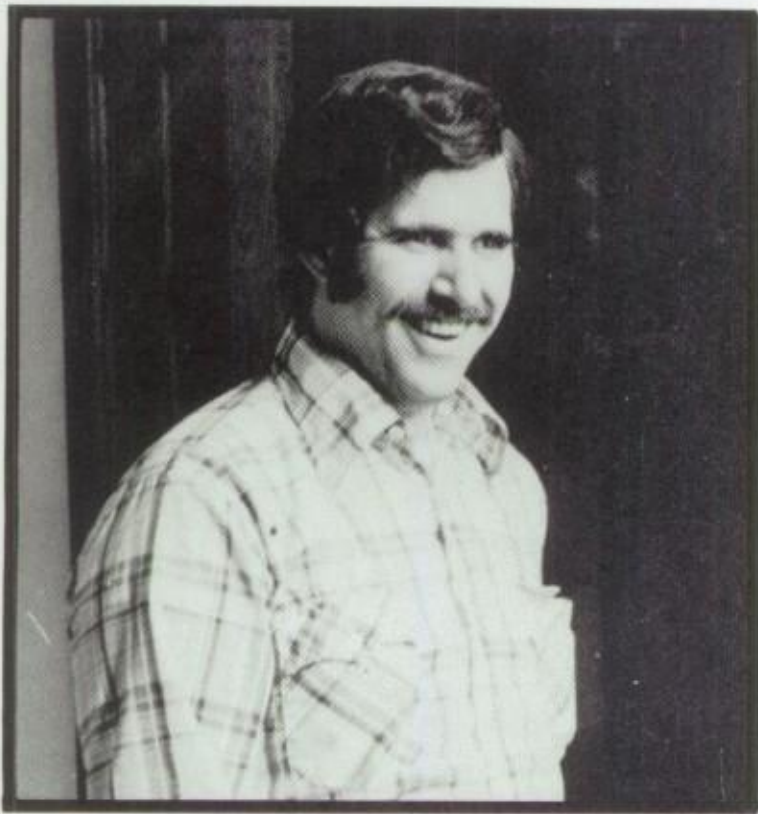

Brother Shaun Gray is in charge of the residential program here at LeMans. He is a former student of SHMA and has shown his love and concern for the academy in his Work and concern for the cadets.

Leads Us Next 25 Yrs.

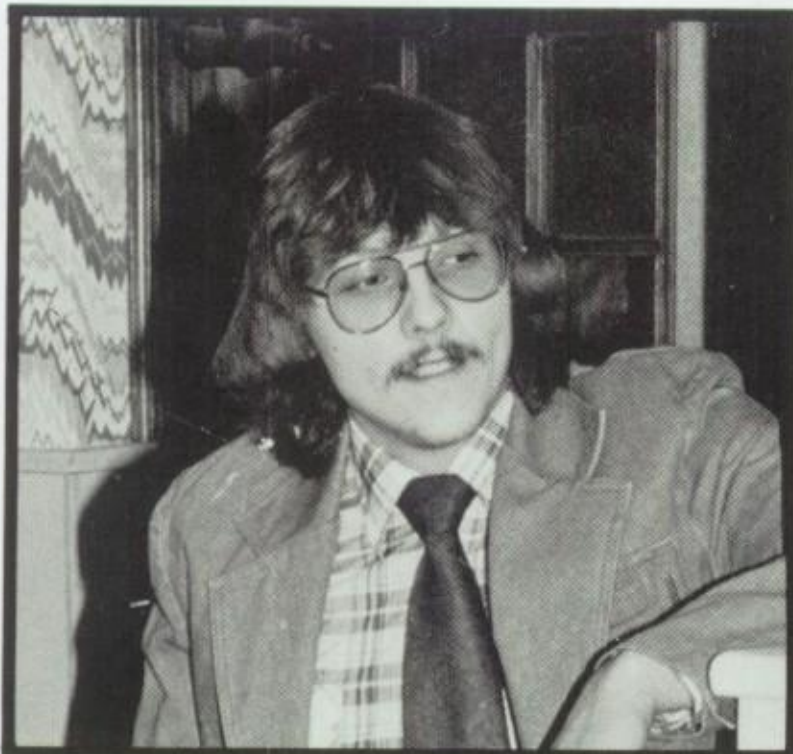

This is our twenty-fifth year and it can be attributed to men like those who are in charge of the academy in seeing to it that its future is planned and thought out. This is the job of our administrators. Many times they seem like they are picking on us or being unfair in confronting us but that is part of their job. We are the future of LeMans. When we leave the academy it lives on a bit in each of us. It carries on into the future in us. By the concern for each of us and our lives they set an example for each of us to follow into the future to learn to be proud of ourselves and where we come from. It is not easy to do this and often hard for us to understand what is happening in our lives but we can be thankful for what LeMans has done for us because of the planning these men have done and counseling they have given us.

Brother Thomas Henning is in charge of Academy finances and also works in the school teaching typing and as assistant Principal and helps with rifle club.

Pictured above are this year's Residential staff at an outing they had early in the year. They are pictured here starting with Mr. Don Hudson at left, Mr. Dave Lozano at the right, at lower left is Mr. Mike James with Brother James O'Donnell next to him.

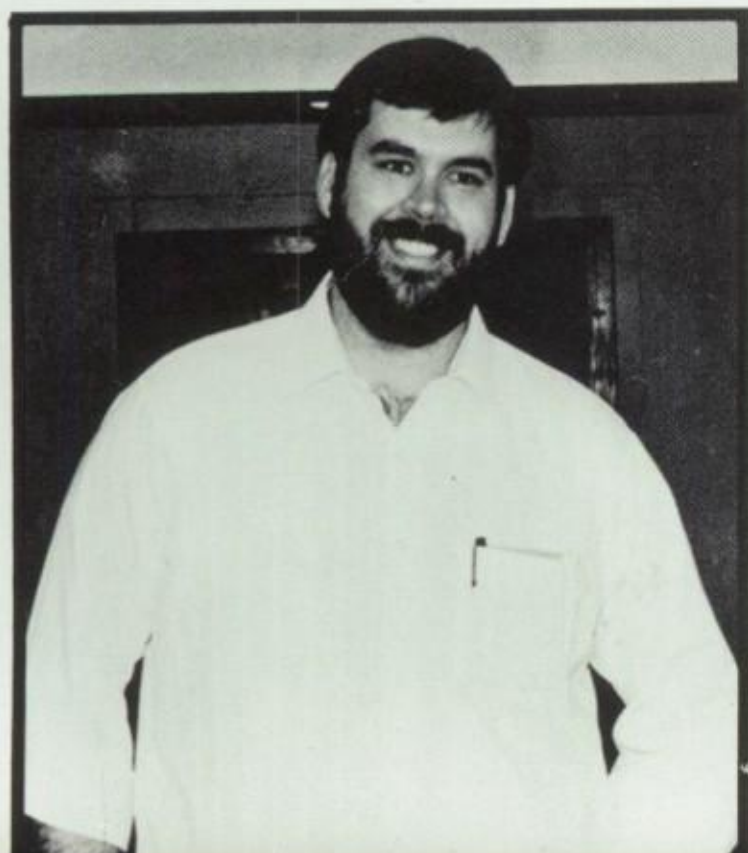

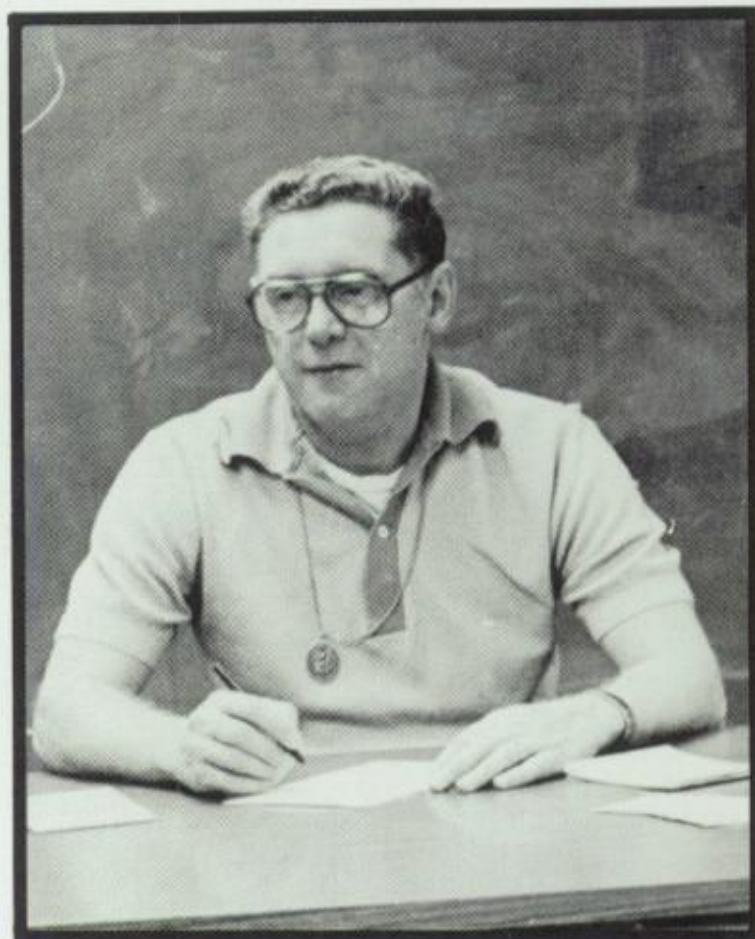

Next is Br. Shaun with Mr. Joel Lechner to the right and Br. John Ptaczek below

Residential Staff Guides Students Lives

This Years' Residential Staff provided Many different experiences to share with the students. Two staff members were former cadets at LMA in the 60's along with Bro. Shaun being a cadet at SHMA They could relate to the problems that the cadets were confronted with. Mr. Hudson is in his fifth year at the Academy as a member of the staff. Mr. Hoefer is in his second full year at the school in charge of a platoon. Bro. James is in his eighth year at the Academy to round out an experienced staff that is balanced by the older members of the staff Br. John and Br. Basil who use their life experiences to provide balance to the program.

Brother Basil Thomas is to the right and Mr. Rob Hoefer on the left.

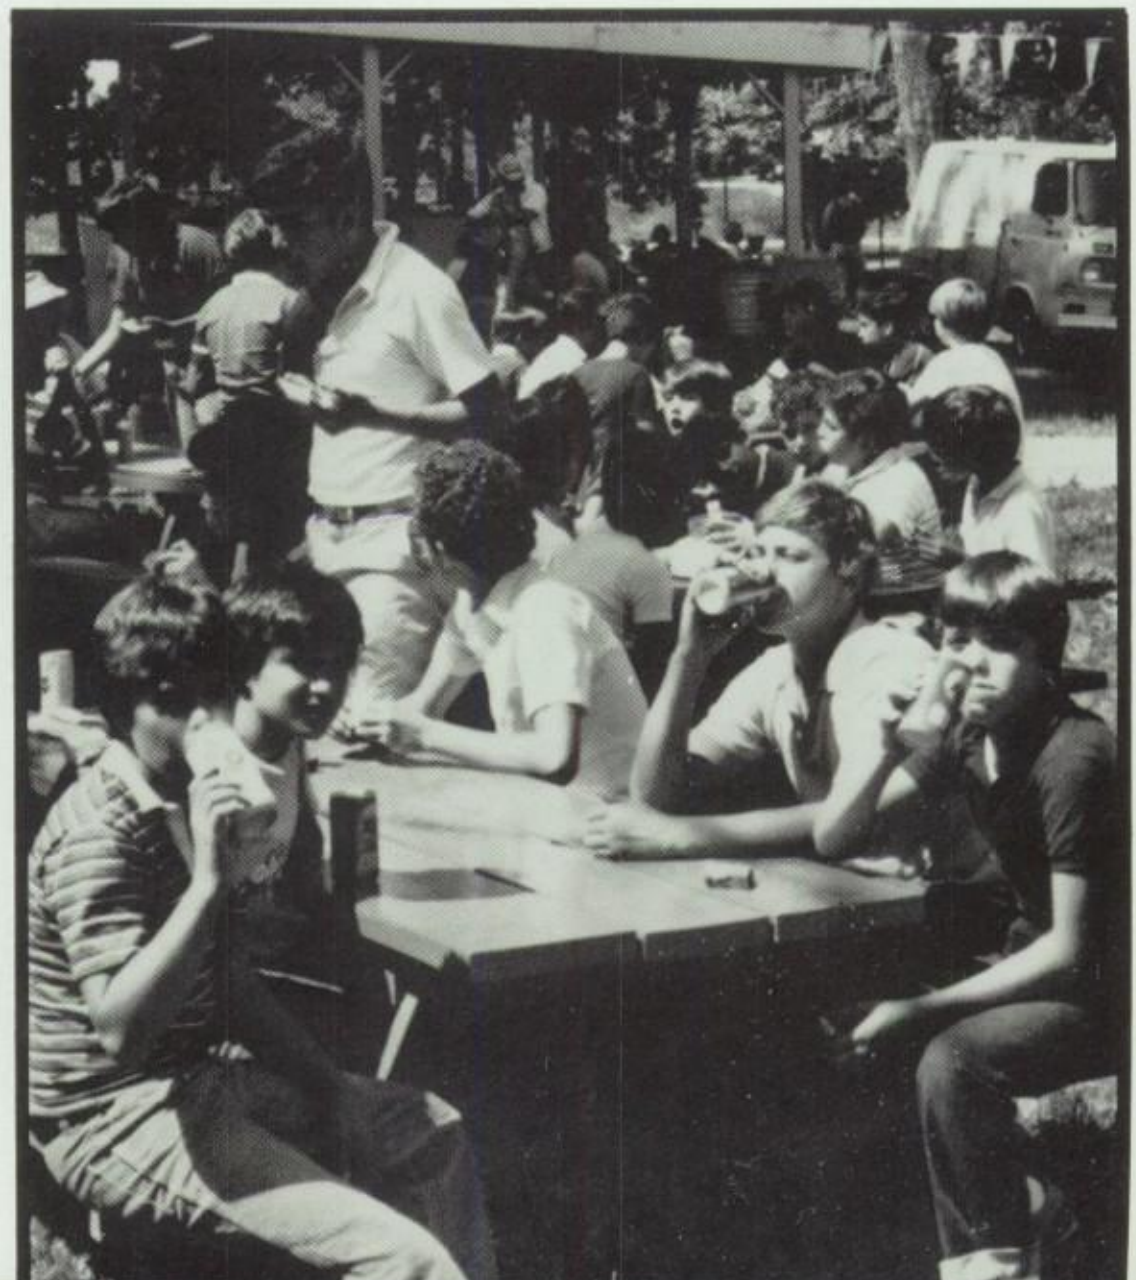

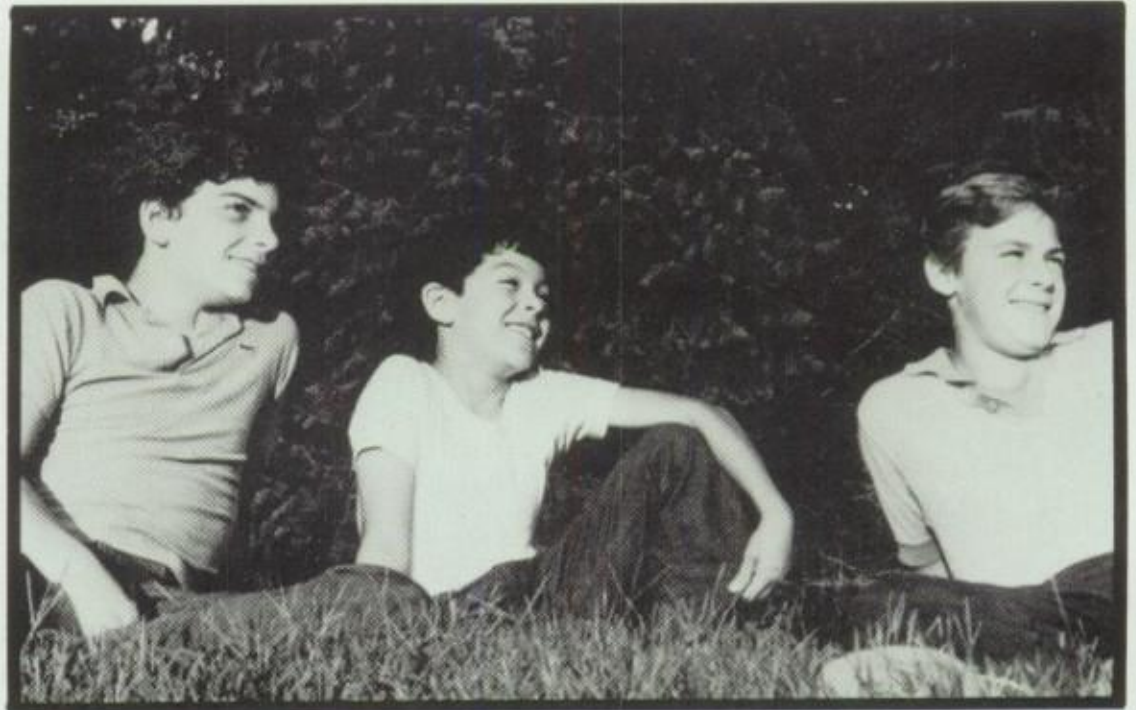

Mexicans Get

Summer went fast for the Mexican students this year because they had to end it early for a quick course in English so that they would be able to converse in the classroom without problems. Its also helpful in helping to get to know your American roommate.

Taste Of U.S.A.

Summer school was not all work for the students though they had many trips around the area so that they could practice their English and keep them settled down so that they would not go stir crazy at the Academy.

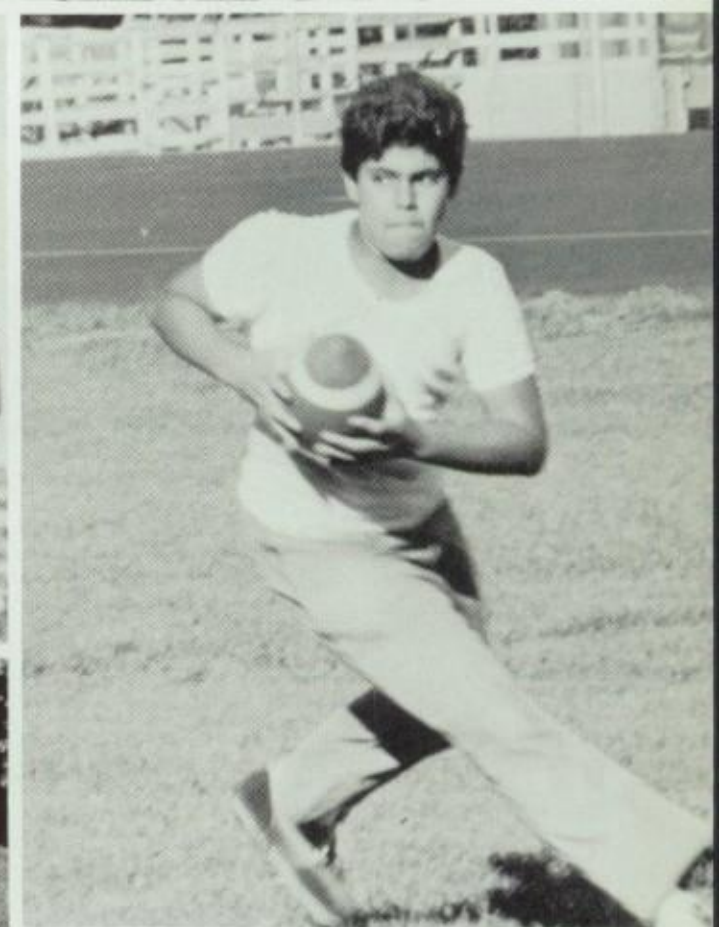

Challenges And Experiences Are Still The Same After A Quarter Of A Century

School is rarely fun and never easy for anyone. At LeMans however we learn to cope with the many problems that life presents to us. The program is designed to keep us ever mindful of our responsibilities out of the classroom but also and especially within it.

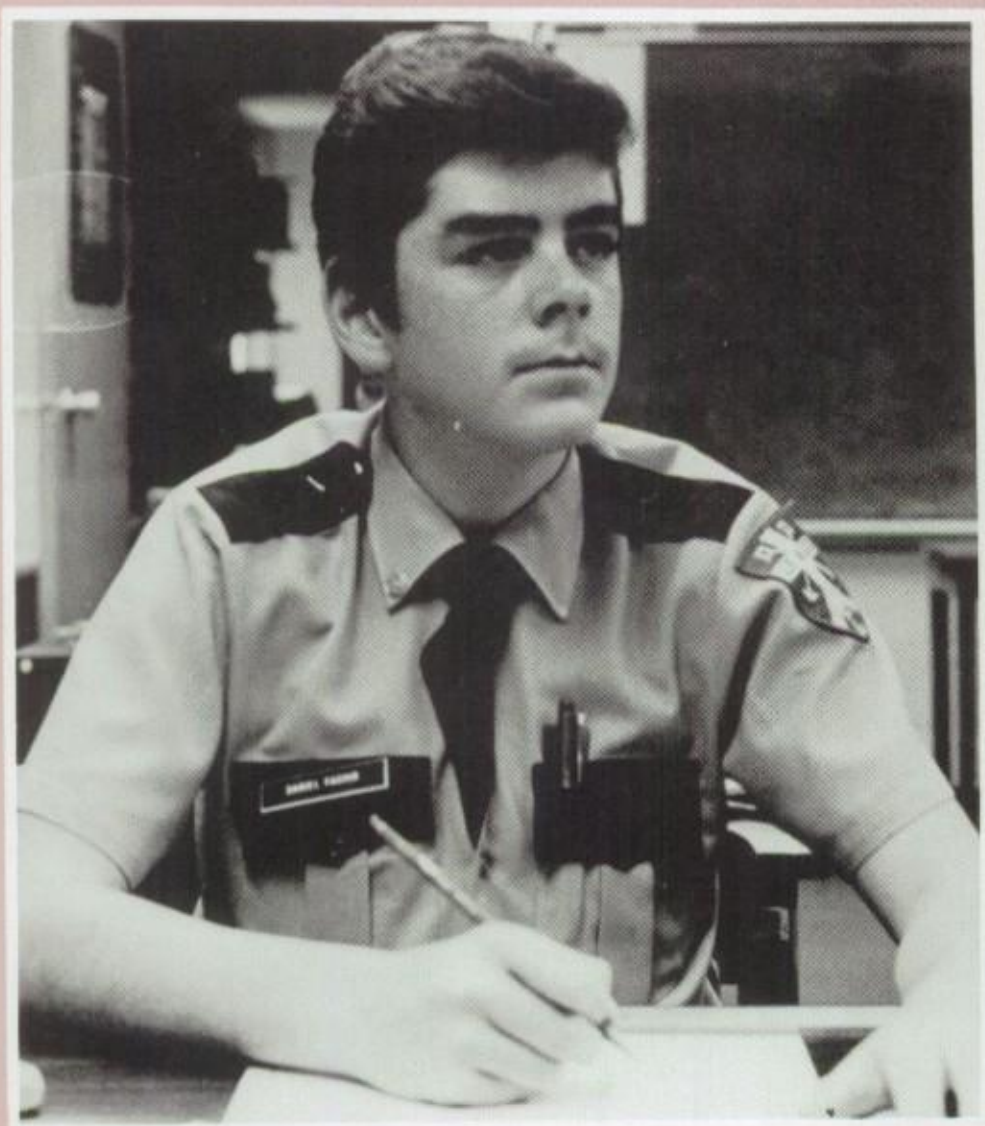

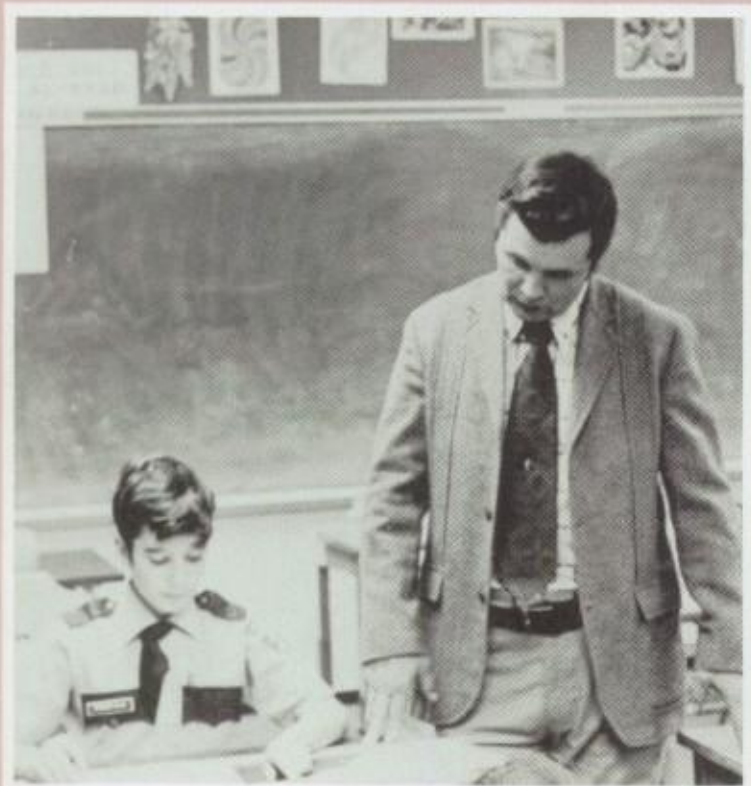

In the classroom we are challenged to use and get the most out of our God-given abilities and talents. We often become frustrated at the problems that confront us but are always able to bounce back from these setbacks a bit stronger and a bit more self-confident.

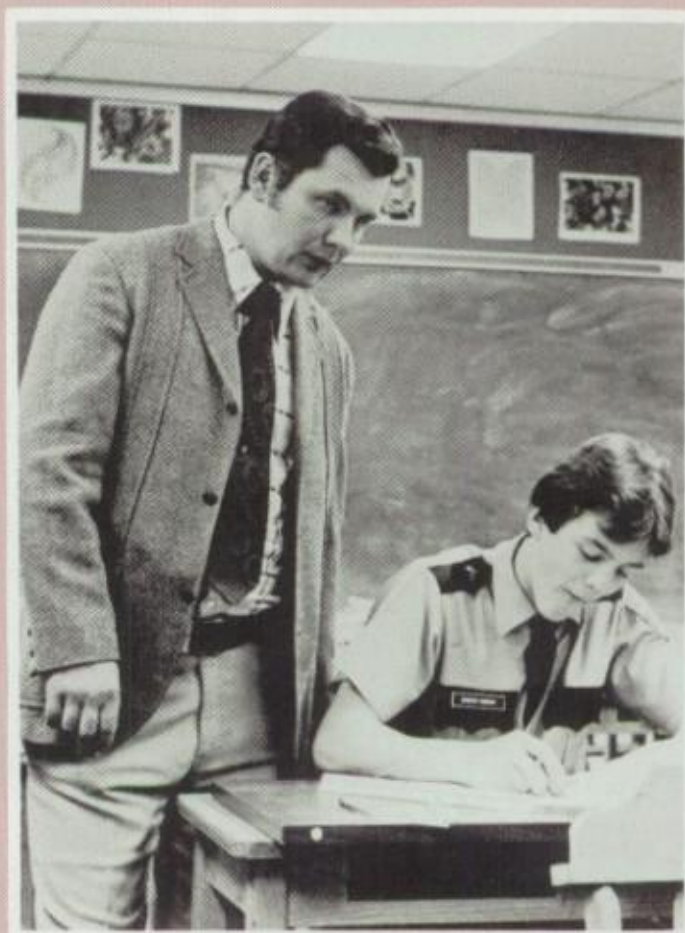

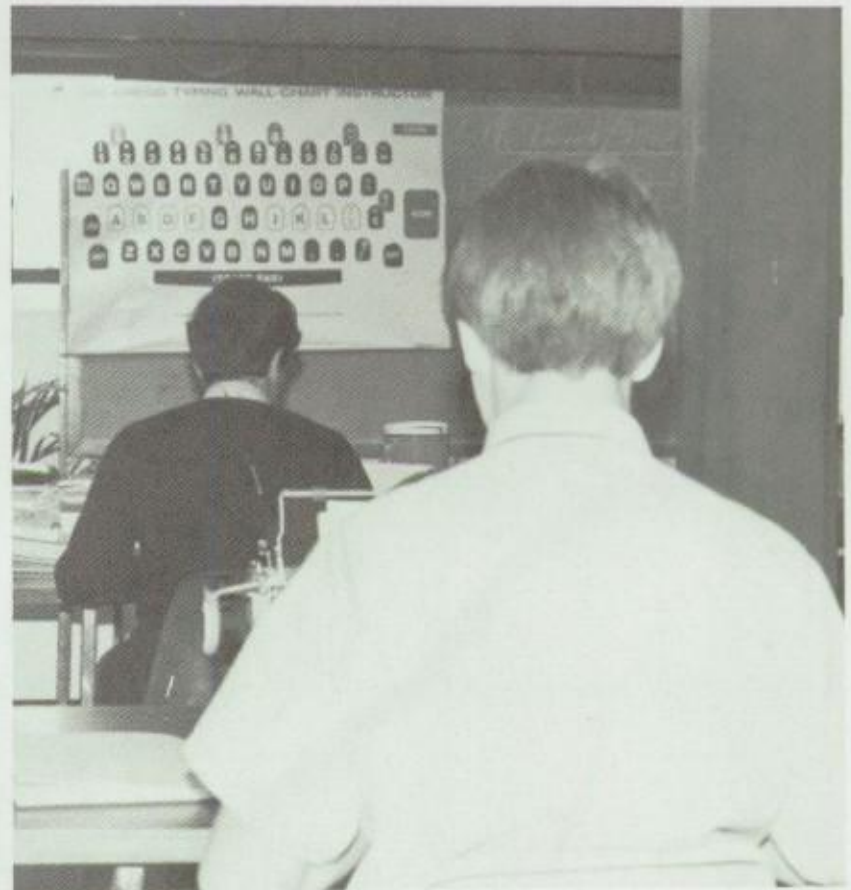

Mechanical Drawing Provides Variety

An optional course, Mechanical Drawing is for the ninth graders who show an interest in being able to learn to make scale drawings. It could have many uses for them in the future and gives them a break from the usual reading, Writing and arithmetic.

These pictures show Br. William supervising the students as they work on new drawings and learn new techniques from Brother on how to make the drawings better.

In Memoriam

WHAT IS IT ALL?

*What is it all, when all is told,
This constant striving for fame or gold,
The fleeting Joys, the bitter tears,
We are only here a few short years.
Nothing our own but the silent past,
Loving or hating, nothing can last!
What is it all, but a passing through,
A cross for me and a cross for you,
Ours seems heavy, while others seem light,
But God in the end, makes all things right!
He tempers the wind with such loving care,
He knows the burdens each can bear,
Then He changes life's gray into heavenly gold.
Ah! that is all, when all is told!*

Life At

LeMans

A platoon started the year in fine fashion by sweeping the dorm competition on the schools first closed weekend. Using the team spirit that was fostered by the victories the platoon got off in good style.

The athletic efforts they put forth brought the platoon close together, which sometimes takes all year, because they all worked for a common goal.

It also helped set the mood for the academics in the dorm. Seeing what kind of effort it takes to be a winner, the platoon members applied the same hard work to their studies.

At the time that this bit of copy is being written the highlight of the year for C platoon was their winning the first R.O.T.C. inspection. Mr. Lechner organized the students into details each having a specific duty to fulfill.

By using this strategy each person learned that he is important to the other students and that they depend on him to do a good job. This helped foster an atmosphere of unity within the dorm to accomplish a certain goal.

D Platoon Dominates ROTC Inspections

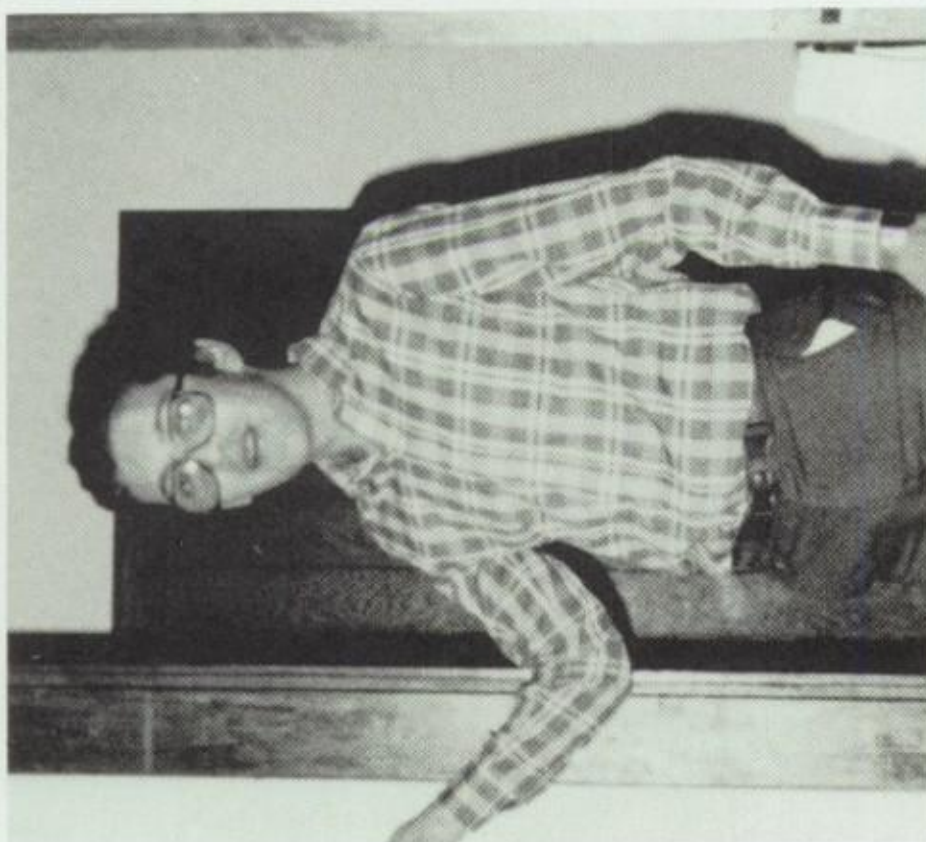

After a slow start D platoon won the second and third R.O.T.C. inspections to get warmed up for the tough competition on Parent's Day. Br. John's platoon has dominated the

competition due largely on the part of his eight years experience as the D platoon prefect.

Br. John utilizes the teamwork concept stressing to each student that he needs to be an integral part of the platoon by giving his all to the effort at hand.
